

The CMD is a separate division of the Electrical Association of Rochester. A volunteer committee serves to establish policy, recruit sponsors and develop programs [based on feedback from the electrical community] aimed to be of value to the Construction & Maintenance Community.

The association asks that you make a token payment of \$15.00 per person in order to be eligible to attend all eight programs. The true cost of all the programs is picked up by the sponsors without whom the CMD would not exist.

Construction & Maintenance Division Committee

Todd Eichas, Delphi Corporation/UAW
Chairman

IT'S CMD TIME!

Construction & Maintenance Division

The Construction & Maintenance Division (CMD) of the Electrical Association of Rochester is ready to kick off another great season of informational programs for our Electrical Community. Inside is our Educational Program Schedule for 2006-2007. From October through April we offer monthly educational programs to keep you up-to-date on the latest innovations in your field.

Programs start at 5:30 p.m. A forty-five minute to one-hour presentation will enlighten you on a current topic and provide time for questions and answers. Immediately following is a social hour with pizza, chicken wings, and soft drinks provided.

It's a great opportunity to network with some of your peers, and there are tabletop displays of electrical products and services at every program.

We even offer an "onsite learning opportunity" with a behind-the-scenes Tour of an electrical project in the area.

Make an investment in your future.

Register for CMD today!

PROGRAM REGISTRATION FORM INSIDE!
